Worldflow Monitoring Service Published continuously since 2002!

Flow Research began the *Worldflow Monitoring Service* in 2002 as a way to keep our clients updated between flow studies.

The *Worldflow Monitoring Service* consists of two quarterly publications, *Market Barometer* and *Energy Monitor*, as well as *Flash Reports* which are sent out to subscribers as significant news occurs that would be of interest to the process control community.

WE GREAT CHANGE IN FLOW

Eloxxtime Wall Clock

A *Worldflow* publication

The *Market Barometer* keeps subscribers up-date on new products and changes within the flowmeter, level, temperature, and pressure markets. The *Energy Monitor* is focused on the two major sectors of the energy industry: oil & gas and refining, and power & renewables.

Subscribers also have the benefit of our periodic *Worldflow* User Perspective Surveys that keep them posted on changes in customer preferences and decision-making patterns. Periodic White Papers provide in-depth coverage on important topics within flow measurement and energy.

Feel free to take advantage of this free trial offer. Please fill out the EZ Email Order Form on the other side of this page if you would like to sample this informative service that focuses on your business interests. And thank you for your consideration!
